

The Evolution - E2 precision cutter combines all the features and functions wide format printers and sign makers need. It's accurate, easy to use, and can mount onto your existing table.

The heavy duty cutter bar clamps materials securely. The high-performance double cutting head design relies on long-lasting Graphik blades. These unique reversible blades cater to both left and right-handed operators and cut materials up to 1/2". Also included is one medium-duty utility blade holder that accepts standard utility blades and cuts up to 3/8" thick. Flip-over stops on both sides adds horizontal clamping to increase accuracy, prevent slips & reduce cutting time.

The Evolution - E2 mounts directly onto your existing table or work surface. Adjustable levelers ensure straight and accurate cuts to within .008" over the entire length. The lift hold mechanism is operable from both sides.

EVOLUTION - E2

Turn Your Precision Cutting Bar into a Cutting System!
 Designed to fit any bench, the Evolution-E2 mounts directly onto an existing table. Or consider Keencut's top-of-the-line Evolution Bench. Worktop not included.

Textile Cutting Tool

The Evolution features an attachable textile cutting wheel! When cutting fabrics or other thin materials; the cutter bar can be repositioned over a special textile cutting surface to prevent fraying.

Item #	Description
